4. It is understood that the primary basis for FY 1957 allotments to the bulk stock accounts is the total of material withdrawal authorizations (Property Authorizations) issued to Agency headquarters components. However, such a basis does not take into account the fact this office has been required to ship from stock material valued in excess of [redacted] in order to support current operations. Under the present procedure, such shipments are considered as transfers of stock and no material withdrawal authorization is required. No consideration is given to the fact that these stock shipments require the obligation of bulk stock account funds to directly procure or partly replace material shipped.

5. In order to adequately meet estimated requirements through 30 June 1957, for direct purchase requisitions and emergency stock procurements, it is recommended that you approve the following additional obligating authority:

7-6007-10	(General)	[redacted]
7-6095-20	(Communications)	
TOTAL		

25X9

Formal requests for allotment are attached (Tab B).

JAMES A. GARRISON
Director of Logistics

The recommendation in paragraph 5 is approved.
